Maximize your IT with ADI's Best-in-class Solutions

Data Collection Solutions

Critical to the success of your data collection application is the system's backbone. ADI provides complete network site survey and implementation services to insure optimal coverage and performance of your wireless devices. ADI offers unmatched reliability, simplicity, and flexibility for wireless data collection and labeling needs.

Labeling Solutions

Are your customers mandating bar coding on all products and shipments? Do your products need clear and accurate identification? Do you need help keeping up with changing formats and standards? Let the experts at ADI lead the way.

Printers, software, and supplies are a critical component to your business. Our best-in-class products will enable you to meet your application requirements

Stress-Free Printer Service Solutions

Our local service professionals provide unmatched experience, responsiveness, and results; keeping your label printers and software working for you. Choose one of our comprehensive annual support plans, or time and material plans- whichever best fit your business needs. ADI is focused on fast, reliable repairs

ADI provides full-service wireless data collection, labeling systems, technical support, and professional services. We support the manufacturing, distribution, and fulfillment markets and are dedicated to providing best-in-class solutions, enabling you to maximize your IT investment.
